

# Manuel Rodriguez Berdud

Lakeland, FL (relocation open) | manuelrguezberdud@outlook.com | linkedIn:manurguez03 | (402)504-8262

## Education

**MS Data Science**, FLORIDA POLYTECHNIC UNIVERSITY Aug 2025 – May 2027

- **GPA:** 3.89/4.0 | **Society of Hispanic Professional Engineers (SHPE)** Member
- **Related Coursework:** Comp. Data Analysis, DW & EDA, Optimization, Time Series Analysis, Econometrics

**BS Mathematics and Physics**, CONCORDIA UNIVERSITY NEBRASKA Aug 2021 – May 2025

- **GPA:** 3.89/4.0 | **Academic All-American Award** – 2024, 2025 | **NAIA Athletic Scholarships** – Tennis & Soccer
- **Related Coursework:** Advanced Statistics, Diff. Equations, Linear Algebra, Real Analysis, Comp. Physics

## Experience

**Graduate Research Assistant**, Florida Polytechnic University – Lakeland, FL Aug 2025 – Present

- Conducted literature reviews and analyzed research datasets across **5+ projects**, supporting the **development of research methodologies and data-driven approaches** to address project objectives
- Collaborated with faculty and research teams to **plan and execute 5+ research projects**, contributing to manuscripts, reports, and presentations that communicated findings to academic and professional audiences

**Tech Consulting Intern**, Structurit – Madrid, Spain May 2026 – Jul 2026

- Prepared **10+ technical proposals** for public and private sector **digital transformation projects**, supporting the design of **cloud architectures and Industry 4.0 solutions** tailored to client requirements
- Leveraged **AWS services** to support data ingestion, processing, and management workflows while completing **AWS AI Practitioner (AIF-C01) training** focused on Generative AI, Machine Learning, and AWS AI Services

## Projects

**Causal Impact of Lucky Loser Entry on Tennis Careers** – Master's Thesis Apr 2026 – Present

- Constructed a player-level panel dataset spanning Grand Slam tournaments, integrating ATP rankings, qualifying results, and main-draw records to **identify track lucky loser and qualifying-loser cohorts**
- Applied **causal inference** and **longitudinal analysis** to estimate the **effect of Lucky Loser selection on career outcomes** by comparing selected Lucky Losers with eligible qualifying losers

**Biomechanics-Based Pitch Command Analysis** - Lakeland Flying Tigers Project Aug 2026 – Present

- Analyzed a pitching biomechanics dataset containing **300,000+ observations** and **200+ variables** to investigate relationships between biomechanical characteristics, pitch execution, and command performance
- Applied **feature selection** and **multivariate analysis** to identify key biomechanical factors associated with pitch command and characterize performance patterns across different pitching profiles

**LLM-Assisted Data Wrangling and Exploratory Analysis of the NYC Marathon** Feb 2026 – Apr 2026

- Analyzed **over 55,000 records** using **LLMs** and **R (tidyverse)** to automate **data wrangling** tasks
- Performed **EDA** using **R libraries** and **Tableau** to identify and visualize key performance trends across runners

## Skills

- **Programming Languages & Software Development:** Python, R, LaTeX, SQL, CLIPS, Git/GitHub, Postman, Swagger, API Testing
- **Data Analysis & Visualization tools:** NumPy, Jupyter Notebook, pandas, PyTorch, scikit-learn, Amazon Web Services (AWS), Excel, Matplotlib, Tableau, Power BI
- **Languages:** Spanish (native), English (fluent), Portuguese (intermediate)

## Leadership Experiences

**Dining Service Supervisor**, Chartwells – Seward, NE Oct 2021 – May 2025

- Supervised and coordinated a team of **6+ employees** during daily dining operations

**Tennis Coach**, Weils Tennis Academy – Ojai, CA Jun 2025 – Aug 2025

- Coached and mentored **15+ young players**, improving their technical skills and competitive performance
